

## For Parents/Relatives of Transgender and Gender Fluid Youth

---

### A Therapy Support Group

Does your child or young adult identify as gender fluid, non-binary or transgender? Are you looking for a support group with other adults that are going through similar experiences? Are you looking for a safe and nurturing environment to process your feelings, your pain or fears? Are you looking for good providers, professional resources and how to navigate your way through this journey?

The cares and concerns of the group members will lead the discussion and Casey Weitzman, M.A., L.M.F.T. of Gender Wellness of Los Angeles — a licensed marriage and family therapist for almost 25 years, counseling children and adults who are exploring gender identity and/or sexual orientation issues — will moderate.

**Cost = \$60/person/week. Meets weekly, Monday nights, 6:00-7:30 pm.**  
Call for a free consultation either in person or over the phone.
